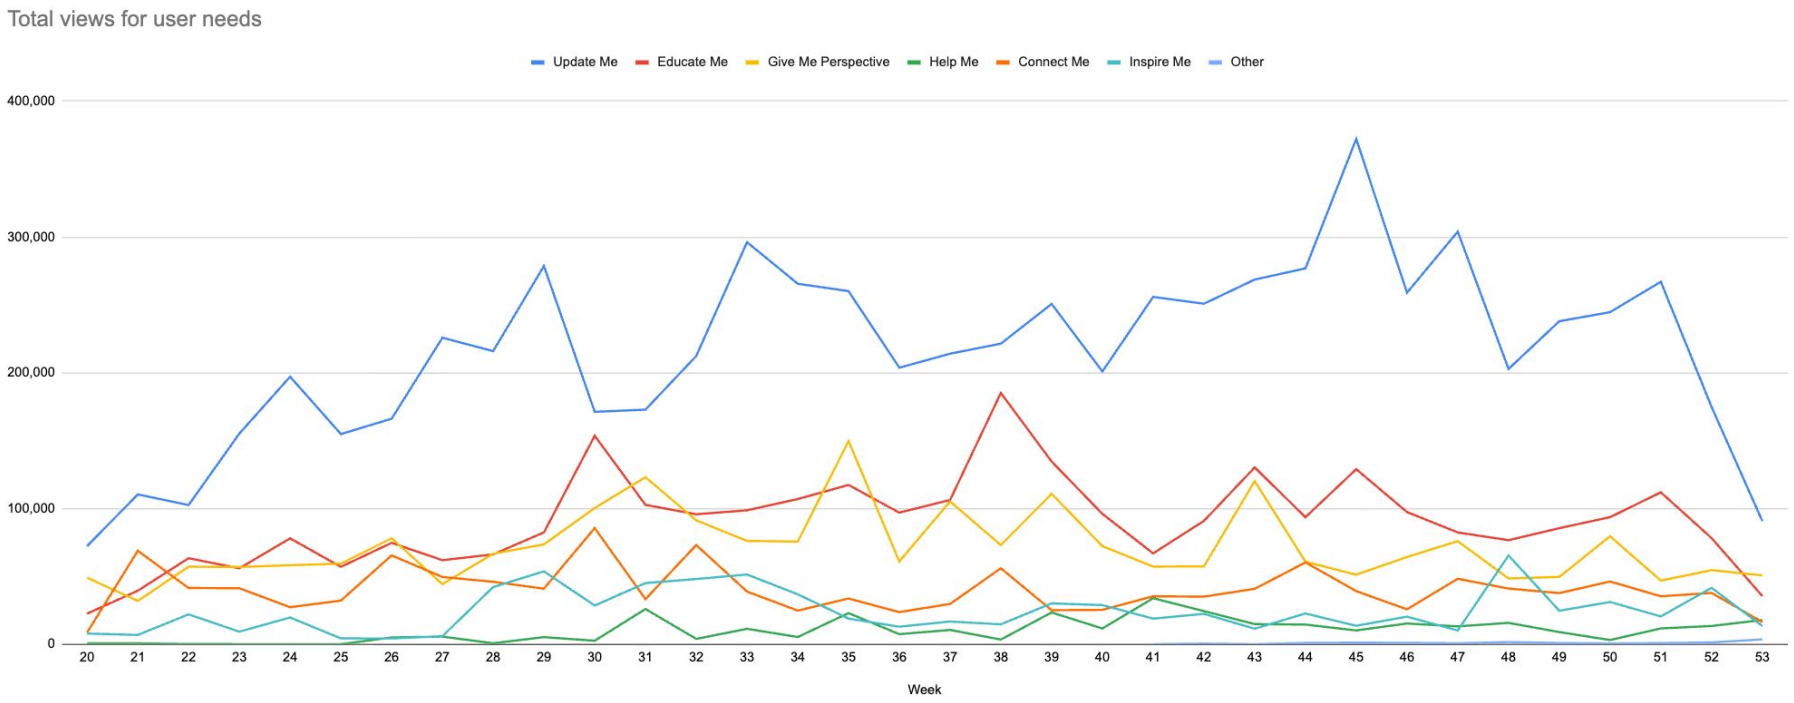
User Needs Takeaways

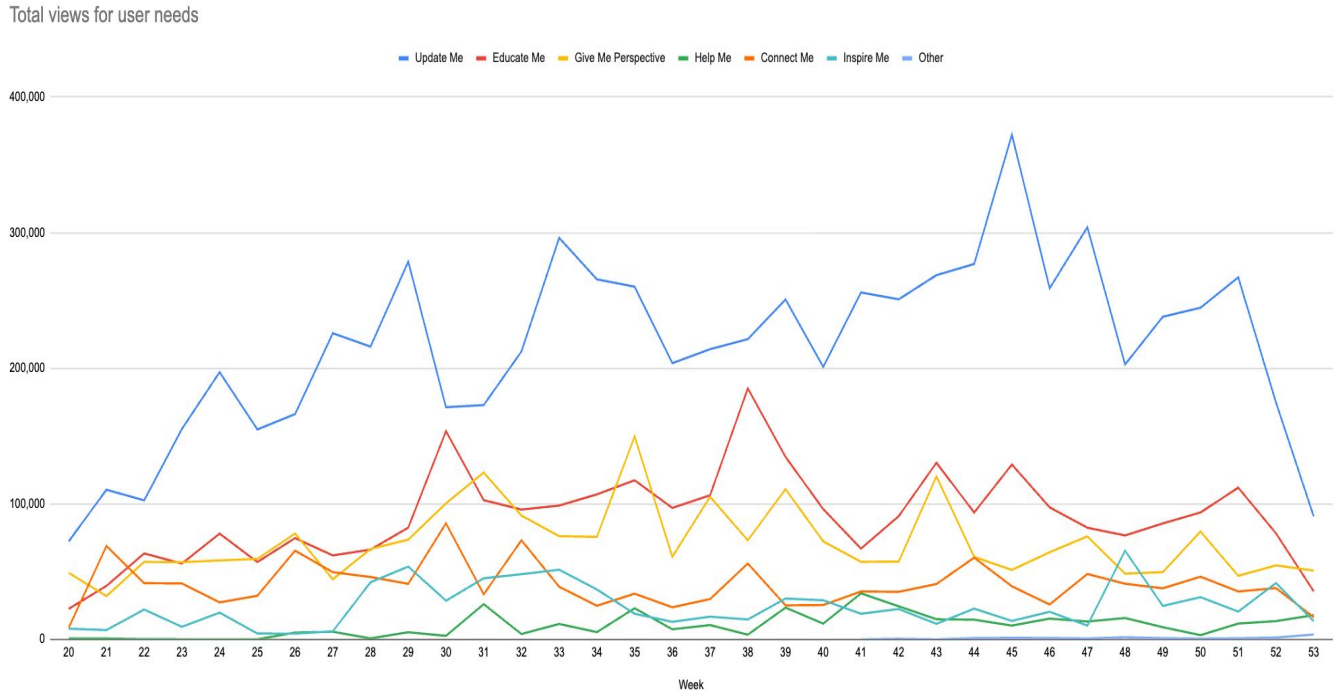
Stories published from May to December 2025

- Chad built a dashboard that tracks traffic to stories in each user need.
- These metrics are based upon stories on PH, CM & SJ.
- Update Me: highest page views
  - Also the most applied user need
- Help Me + Give Me POV have the potential to attract more audience.

Total page views

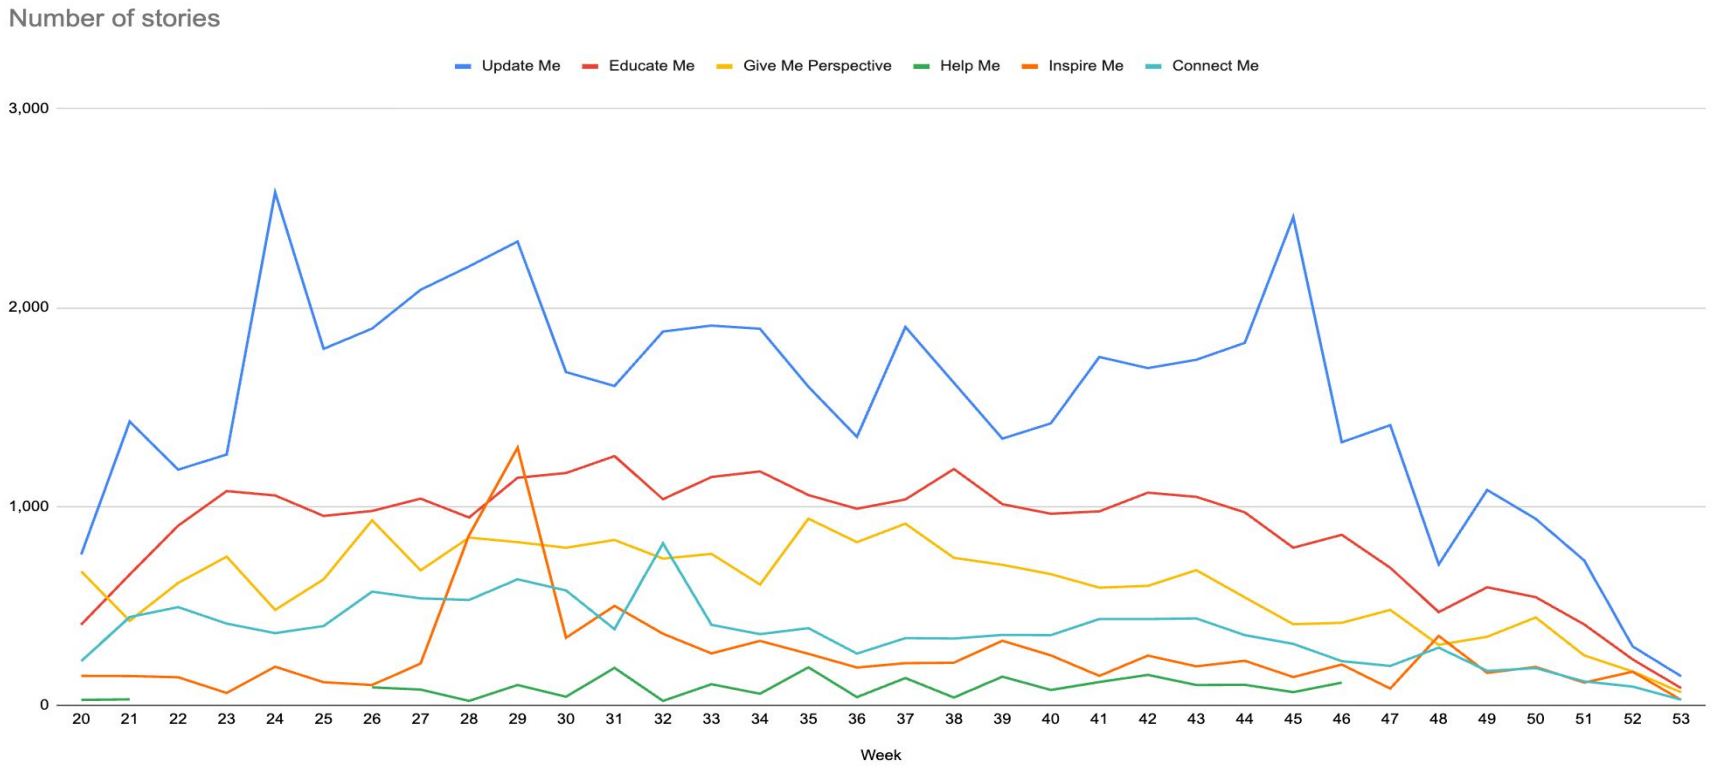


How many views for each user need

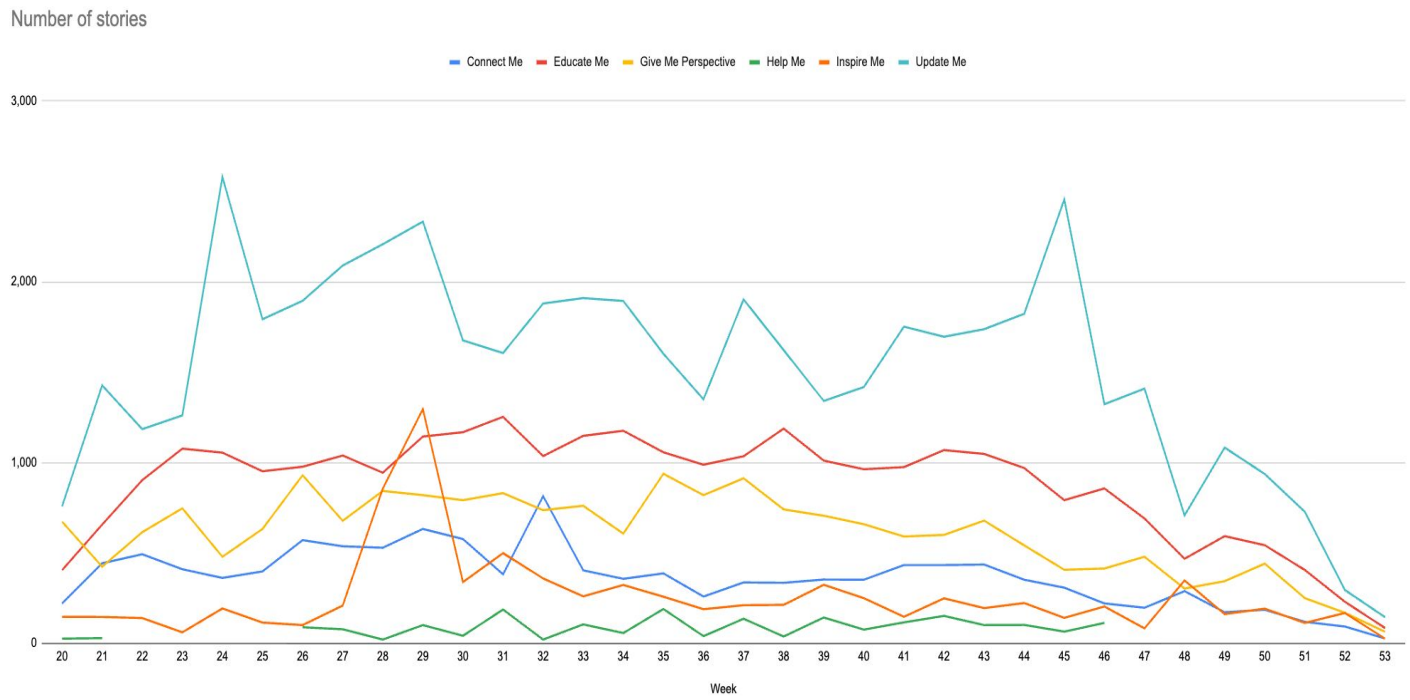


Update Me gets the most amount of views but it also has the most number of stories attached to it

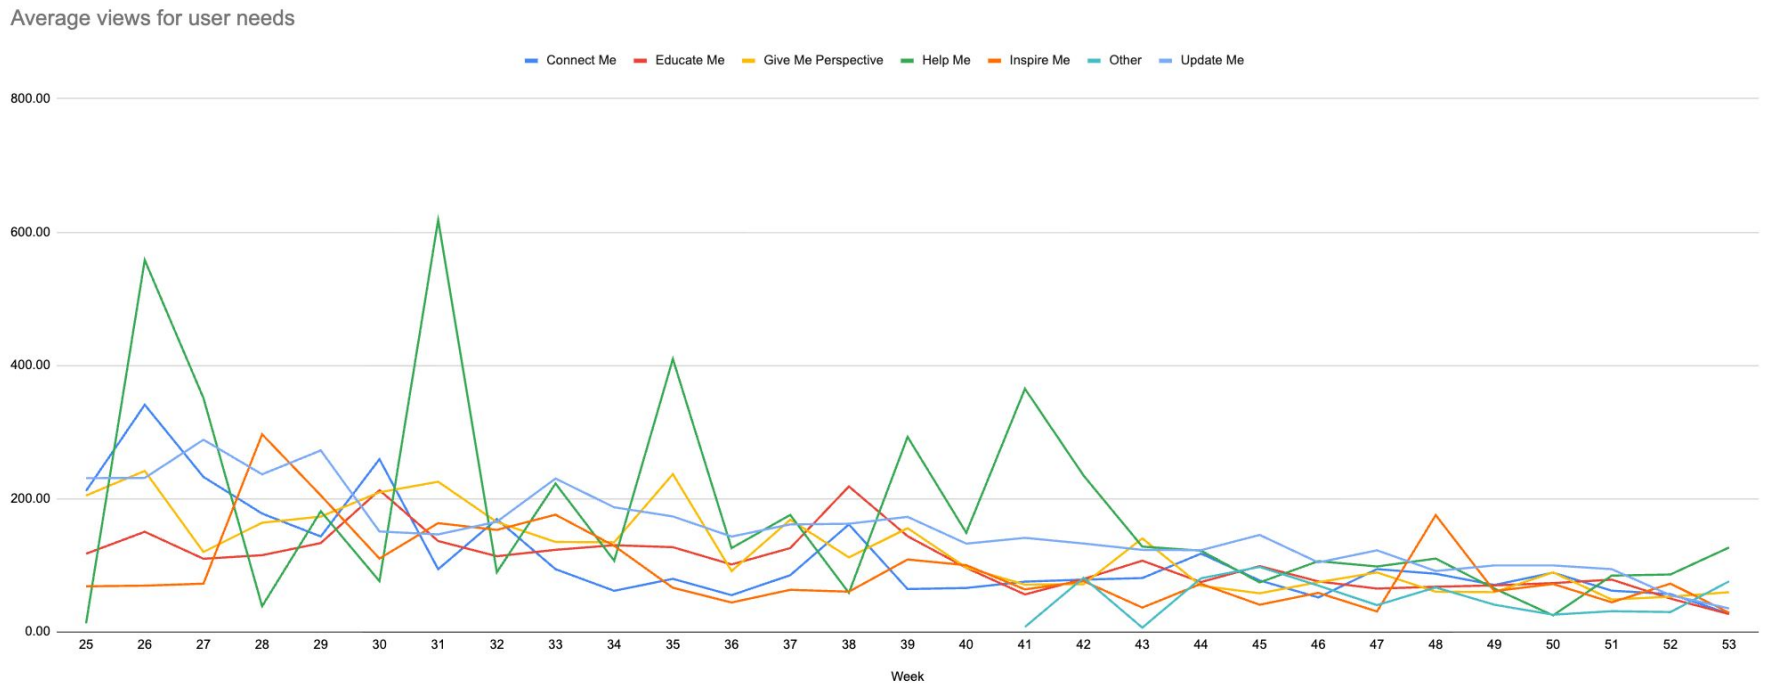
Stories assigned to user needs per week



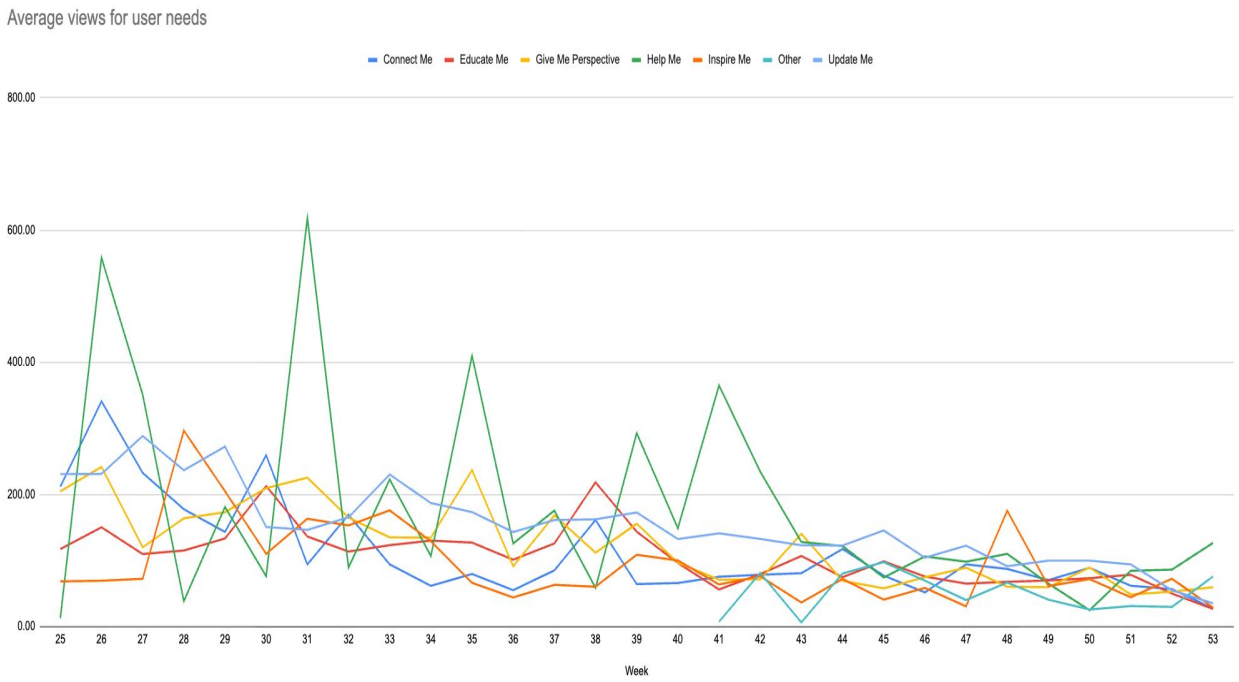
How many stories are assigned to user needs each week



How user needs perform on average each week



How user needs perform on average each week



- Once you divide the total views by the number of stories each week, Update Me isn't as strong.
- Help Me is consistently strong and has several spikes.
- There is strong audience potential with writing more Help Me stories.
- Give Me Perspective also has more potential.
